

A-4201 Flexproof die cutting manual kit

The cutting tool set A-4201 is suitable for the simple manual die-cutting of Flexproof fingers for Habasit thermoplastic conveyor belts up to a thickness of 5 mm and of unlimited width. It is the simplest tool for on-site preparation of conveyor belts. Belt ends are positioned on top of each other and stuck with double sided adhesive. A tape with the finger pattern printed on is stuck on the joint and the fingers are cut on a robust support surface using hammer and chisel. It goes without saying that this tool is mostly for single belt fabrication, not for series.

Technical data		
Max Belt Thickness	5 mm	0.20 inch
Belt/tape width max.	4200 mm	165 inch
Custom Tariff	84798997	

Available versions	Item number	Power supply
A-4201/0	H088000629	Manual
