

AFL-601 Flexproof die cutting device

Designed for flexproof and step-flex preparation on belts up to 10mm thickness and no limits on width, the AFL-601 is the ideal solution for onsite use or small series fabrication. Although it's manually actuated, the indexing and punching operation are provided with the same action, making its use extremely easy, quick and precise. FDCH-20/80 is the standard punching head while optional heads are available in order to be able to prepare a huge range of different belts.
