

Standard material: PE03 High Density polyethylene, green color.

Standard packaging: Coil. Slitted coils (widths from 10 to 100 mm) available on request. Other widths, coil lengths, materials and colors available on request and for sufficient quantities.

Description: Extruded PE tape in various thicknesses and widths. Used as a flexible sliding support in conveying and linear movement applications. With its good wear and chemical resistance, and low noise properties, it works well with all types of machinery.

This is used in a wide range of industries such as bottling, packaging, materials handling, and food processing.
