

Declaration of Compliance

This declaration of compliance relates exclusively to the product specified herein in the state in which it was placed on the market. Any components added, handling effected or modifications carried out subsequently are expressly excluded. The present declaration ceases to be valid in the event that the use of the product is not in conformance with the conditions specified in the applicable regulations, if any, and in Habasit's technical documentation. The product is intended for repeated use only.

Herewith we declare that the product specified herein is in compliance with the following food contact regulations.

Linaplus

This product contains: natural rubber

EU

Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food as amended. Specifically, this refers to the relevant Articles 3, 11(5), 15 and 17.

Regulation (EC) No 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food as amended.

This material has been manufactured in accordance with the relevant requirements of that regulation.

Elastomers and natural and synthetic rubbers are not regarded as plastics and therefore not covered by Regulation (EU) No 10/2011.

Compliance can therefore not be confirmed regarding this component.

Also, these materials are currently not covered by a specific measure acc. to Art. 5 of Regulation (EC) No 1935/2004.

Since the product meets the requirements of other food contact legislation mentioned in this declaration, it is in compliance with Regulation (EC) No 1935/2004, Article 3.

This product meets the relevant requirements laid down in this regulation and is applicable for direct contact with:

- dry, aqueous and alcoholic food types according to Annex III, table 2
- up to 30 minutes contact time at up to 70°C

Not for fatty/oily food

Above mentioned product does not contain dual use additive(s) acc. to Regulation (EC) No 1333/2008 (food additives) and Regulation (EC) No 1334/2008 (flavourings) in their current version.

Testing of overall migration, specific migration and other applicable restrictions (maximum permitted quantity, primary aromatic amines, etc.) was performed according to this regulation as amended.

Ratio of food contact surface area to volume used to establish the compliance of the article: 6 dm²/dm³

Food simulants and migration conditions used for migration tests:

- A (10% Ethanol) OM3, 2 h at 70°C

German BfR (BgVV, BGA) recommendation XXI Commodities based on Natural and Synthetic Rubber
The raw materials used comply with the requirements of this recommendation.

This product meets the relevant requirements laid down in this recommendation and is applicable for direct contact with:

dry, aqueous above pH 5 and alcoholic food types
- up to 30 minutes contact time at up to 70°C
Not for fatty/oily food

USA

FDA, 21 CFR parts/sections 177.2600 Rubber articles intended for repeated use, 178.2010 Antioxidants and/or stabilizers for polymers, 178.3297 Colorants for polymers.

This product meets the relevant requirements laid down in this regulation and is applicable for direct contact with:

- dry, aqueous and alcoholic (<8% alcohol) food as listed in 21 CFR 176.170(c) table 1, food types I, IV-B, VI-A, VII-B, VIII

Conditions of use D (hot filled or pasteurized below 150°F) through G (frozen) as listed in 21 CFR 176.170(c) table 2
Not for fatty / oily food

Product is manufactured and declaration issued by:

Habasit GmbH (Deutschland)
