# Declaration of Compliance

This declaration of compliance relates exclusively to the product specified herein in the state in which it was placed on the market. Any components added, handling effected or modifications carried out subsequently are expressly excluded. The present declaration ceases to be valid in the event that the use of the product is not in conformance with the conditions specified in the applicable regulations, if any, and in Habasit's technical documentation. The product is intended for repeated use only.

Herewith we declare that the product specified herein is in compliance with the following food contact regulations.

# AC-N-Rubber White

This product contains: natural rubber

**EU**

**Regulation (EC) No 1935/2004** on materials and articles intended to come into contact with food as amended.
Specifically, this refers to the relevant Articles 3, 11(5), 15 and 17.
**Regulation (EC) No 2023/2006** on good manufacturing practice for materials and articles intended to come into contact with food as amended.
This material has been manufactured in accordance with the relevant requirements of that regulation.

Elastomers and natural and synthetic rubbers are not regarded as plastics and therefore not covered by Regulation (EU) No 10/2011.
Since the product meets the requirements of other food contact legislation mentioned in this declaration, it is in compliance with Regulation (EC) No 1935/2004, Article 3.

**Arrêté du 5 août 2020** concerning rubber materials and articles intended to come into contact with food and pacifiers for infants and young children.
The raw materials used comply with the requirements of this recommendation.
Testing of overall migration, specific migration and other applicable restrictions (maximum permitted quantity, primary aromatic amines, etc.) was performed according to this regulation as amended.
Food simulants and migration conditions used for migration tests:

| | |
|---|---|
| - A (10% Ethanol) | 120 min. at 40°C |
| - B (3% acetic acid) | 120 min at 40°C |
| - D2 (vegetable oil) | 120 min. at 40°C |

This product meets the relevant requirements laid down in this recommendation and is applicable for direct contact with:
- dry, aqueous, alcoholic (< 10% Ethanol) and fatty or oily food types according to Annex III, table 2
- up to 120 min contact time at up to 40 °C
Not suitable for contact with acidic foods with pH <4,5

**USA**

**FDA, 21 CFR** 177.2600 Rubber articles intended for repeated use
